

cubus shelf system

design options

The **cubus** shelving system is a classic bookcase system available in many different sizes as well as combinations. A large range of fronts including hinged doors, sliding doors, drawers and flaps allow you to create a unique look. Wooden or glass shelves, movable LED spotlights, rear panels and much more are also available. Sliding display cabinets in front of the unit provide storage space for CDs, DVDs or books. The space behind can be used as a conventional bookshelf, a TV-niche or a home bar for example. Sides made from particularly stable triple-layer panels and solid wood shelves mean the cubus shelving system very stable, and ensure a high load-bearing capacity for the construction shelves.

colour patterns

Wood is one of the most noble, beautiful and versatile natural products we have. Every piece of wood is unique. Differences in colour are a result of the wood's structure and place of origin. Similarly, the age of the piece of furniture will determine its colour, as natural factors in your home's environment (e.g. sunlight) can change the surface colour. When your order specifies a particular colour, we do our best to match it. But minor variations in wood, leather, fabric, glass and ceramic are inevitable. An exact colour match will never be possible.

*wild wood versions only available on fronts and table tops

**venetian oak is only available on fronts
